

# QUARANTINE CONTRACT

Cotton Bros., the contractors, are believed to have been awarded the contract for making the improvements at Quarantine Island, which will cause that up-to-date portion of the Marine Hospital Service to become one of the most complete stations in the United States.

So far no official confirmation has been received that the bid has been awarded to Cotton Bros., but Mr. Canton, the contractor's representative in Honolulu, received a cablegram on Saturday evening from the headquarters of the firm at San Francisco, from which he infers that the plum has fallen into their hands. Inasmuch as the contract, if awarded to Cotton Bros., will be signed up in San Francisco, such information would reach Honolulu later on.

In general, the contract for improving Quarantine Island calls for the building of a concrete wall entirely around the island, three feet in height above the coral footing. The wall would give the island some prominence above sea-level. At present its sand shores are washed by the tides, and harbor debris is constantly piling up. The concrete wall would keep this out, also prevent the island from wearing off. The portion within the wall will be filled up, so that it will be dry at all times.

The contract will also call for the building of concrete piers for the long approach from the wharf in the harbor, running back to the island directly before the administration building. A fine wharf is to be built over the piers. A large wharf will be built at the harbor end, which will be equal to all demands of the station. In time a house will be built thereon, in which will be installed fumigating and other quarantine equipment.

The contract is a valuable one, and with the large Federal appropriation to be expended on deepening the harbor and deepening and widening the channel, added to that recently expended in erecting the Federal immigration station, Uncle Sam is certainly doing much to improve the condition of Honolulu harbor. The Territory is also working on different portions of the waterfront, expending several hundred thousand dollars.

It is said that the War Department has had its eye on Quarantine Island for some time, it being considered a splendid position for the establishment of heavy water batteries. However, it is understood that the Marine Hospital Service has no fear of being disturbed in its possession of the little islet.

Dr. Cofer, chief of the quarantine service here, has not heard officially that Cotton Bros. have been given the contract for the work, but he, too, has heard of the matter unofficially.

The new teachers for Oahu College arrived in the Mongolia. Miss A. L. Hasforth, whose year of study in Germany and Paris has given her physical and intellectual refreshment, returned with the greatest enthusiasm for her work.

Miss A. J. Foster, who specialized in college in English and who has had several years' experience in the Rochester High School and in other schools in teaching the subject, will take Miss Graydon's place for the year. The work will go on as outlined in the catalogue.

Mr. Charles T. Fitts will teach Latin. He is a graduate of Amherst and a member of the fraternity of Theta Delta Chi. He is also an experienced teacher. He will have charge of baseball in the spring.

Mr. John S. Reed will teach mathematics. He comes to Punahou after successful experience in Maine schools. He is a graduate of Bates College in Maine. He will coach the football team. He played football four years on his preparatory school team and four years on his college team, of which he was captain his senior year. He has played tackle and in the back field. He will be an addition to the P. A. C. squad later in the year.

Mr. D. Howard Hitchcock, as previously announced, will have charge of the free-hand drawing, and Mr. F. L. Hodley of the mechanical drawing and manual training. This will make the courses in drawing this year especially attractive to students who have a gift with their pencil or who are preparing to enter scientific work.

Mrs. A. B. Ingalls will teach the violin. She is one of Honolulu's most skilful and popular musicians and a successful teacher of the violin.

Mr. Gerard Barton will have the entire music department under his direction. He will teach as usual. Miss Gertrude K. Brown, who has been a most successful music teacher at Punahou for two years, will be the first assistant in the department.

From all indications there will be a very large attendance in all departments of the college. The boarding department is absolutely full. The advance registration has been large. President Griffiths will be in his office in Punahou Hall every day this week from 8:30 to 10:00 a. m. to confer with parents or students. Appointments may also be made by telephone for other hours during any day. Students are received from the Honolulu High School and from Kamehameha on certificate without examination. Students from other schools should arrange for admission and for their proper classification.

## WEEDING OUT RULE.

Judges De Bolt and Robinson, Judge Lindsay being absent, yesterday promulgated the following new rule, which is numbered XXX:

"All cases that shall have been upon the trial calendar for two terms without being heard may be stricken off by order of the court, and will not be reinstated, except upon motion, and all cases that shall have been upon the docket for more than one year will be dismissed for want of prosecution unless good cause is shown."

# REOPENING OF SCHOOLS

At the regular meeting of the Commissioners and Superintendent of Public Instruction yesterday most of the final details for the school term which begins Tuesday were settled. The new Normal School may not open till a week later owing to its not being quite finished. Only six appointments of teachers remain to be made.

Arrangements have been made for the temporary quarters for the Hilo High School and because of Principal Frank A. Richmond's having taken hold in co-operation with the principal of the Grammar School, the Commissioners not only commended him, but ordered a wireless sent to him to use his own discretion in making his arrangements temporarily to house his school.

Superintendent of Public Works C. S. Holloway addressed a communication to the board stating that he had not picked a site for the Hilo High School nor could he go on with the designs until Governor Carter had decided whether the appropriation in the loan bill would be available.

A proposal from Mr. J. A. Gilman to take a ten years' lease on the department's property on Wilder avenue and Punahou street mauka of Professor Alexander's house was referred to the Lands Committee. Mr. Gilman offered to pay \$100 a year for the ground and build a \$4000 house on it, the whole property to revert to the Territory after the expiration of the lease.

Present at the meeting were Commissioners Jordan, Wilcox, Farrington and Al and Superintendent Davis. They approved the following recommendations of the Teachers' Committee:

That Miss Kewina Broad be appointed guard at the Girls' Industrial School at a salary of \$25 per month.

That Miss Marie Rasmussen be appointed principal of Waimanalo School, vice Miss M. K. Cramer, transferred, at a salary of \$42.50.

That Miss H. Taylor be appointed assistant at Kauluwa, vice Miss Angus, promoted during the absence of C. P. True, at a salary of \$30 per month.

That Miss M. le Toler be appointed assistant in the Hanapepe School, vice Mrs. L. C. Bickford, transferred, at a salary of \$35.

That leave of absence be granted to S. K. Kekahuna, principal of Wallau School, on account of illness as per doctor's certificate.

That Miss Alice Bartholomew be appointed principal of Wallau School, during the absence of S. K. Kekahuna, at a salary of \$25.

That vacancies at the following places be left to be filled by the school agents in whose districts they occur:

Assistant Pepeekeo, vice Miss M. Taylor.

Assistant Paaulo, vice Miss O. Horner.

Principal Kaiwika, vice Mr. Albert Boscow.

Assistant Holualoa, vice Miss Brehman.

Assistant Olua, vice Mrs. L. M. Carpenter.

That a partial support of the separate plantation school at Wailua be discontinued.

That the salary of the principal of the new five-room school at Papakou be placed at \$100 per month.

That the terms for the school year 1905-1906 be as follows:

Fall Term—September 5, 1905, to December 22, 1905.

Winter Term—January 6, 1906, to April 6, 1906.

Spring Term—April 16, 1906, to June 15, 1906.

That the following resolution be adopted:

"Whereas, The attention of the Department of Public Instruction has been called to the fact that there are some sixty teachers in the employ of this department who have never held any certificates, and also that many of the certificates formerly issued to teachers in the employ of the department have already expired, therefore be it

"Resolved: 1. That all teachers in the employ of this department who have no certificates, all those whose certificates have already expired and those whose certificates will have expired by September 1, 1906, shall be required to take the examination to be held July 12, 13 and 14, 1905.

"2. That all first-class certificates and all Normal certificates issued prior to this date be extended in time indefinitely, subject, however, to recall by the department at any time after the expiration of their prescribed time limit if the standing of the teacher does not warrant renewal.

"3. That a copy of these resolutions be sent to all teachers affected, in order that ample time may be afforded them to prepare for the next examination."

Mr. R. Sprague (University of California) was appointed science teacher at the Honolulu High School, vice Mr. F. A. Richmond, transferred, at a salary of \$10.

A wireless message to L. Severance, School Agent, Hilo, about two rooms for Hilo High School, from Superintendent Davis was read, and the answer from Severance to Supt. Davis stating that seats for 60 and 100-foot blackboards were required.

The Superintendent announced to the Commissioners that school affairs were in pretty fair shape for the opening of the public schools on next Tuesday.

There were some doubts, however, as to the opening of the new Normal. The Superintendent of Public Works informed the Commissioners that the building may not be ready for the opening Tuesday, but that the delay, if there is any, would not be more than two or three days.

## CHAMBERLAIN'S PAIN BALM.

This liniment should occupy a prominent place in every home. It has no equal for its prompt cures of cuts, burns, bruises and sprains. For sale by all dealers and druggists. Benson, Smith & Co., Ltd., Agents for Hawaii.

L. K. KENTWELL.

The Examiner says: The lobbyists at Washington are to have the services of L. K. Kentwell, a prominent half-caste of Honolulu, in their efforts to have the exclusion laws modified. He arrived here yesterday on the Pacific Mail Company's steamer China, and after a visit to Portland he will journey to the East and report for duty. It is stated that his real mission in this country is to collect funds for the furtherance of the present boycott against American goods, but this he will not admit.

Kentwell was born of a Chinese mother and an English father and for years has been a resident of Honolulu. He was engaged in the real estate business in that city, but has given that up in order to assist the Chinese in their efforts to have the exclusion law made less stringent. He states that he is in favor of a law excluding the coolie class, but feels that it should not apply to all Chinese. Furthermore, he says that the law should not debar half-castes. Some years ago he made a trip to Manila and on his return, when about to land on American soil, the immigration officials endeavored to stop him.

Kentwell does not say that he is here to collect money to help the boycott, but he fears that this country will suffer commercially if the present Congress does not do something toward exempting the merchant and student class from the exclusion act.

"The battle of the Korean Straits developed the fact that battleships can be sunk by high-powered guns as well as by torpedoes."

Surgeon-General Suzuki, fleet surgeon for Admiral Togo's fleet, and attached to the flagship Mikasa during the victorious engagement in the Korean Straits, said that yesterday aboard the steamship Doric. The distinguished Japanese is a passenger en route to Detroit to attend the convention of military surgeons to be held there on September 19.

Surgeon-General Suzuki is a tall, distinguished looking Oriental. The statement that he looks like Marshal Oyama is rather far-fetched, for he is neither of the stocky build of the famous field general nor does he wear a beard such as is shown in all photographs taken of the Marshal during the past year.

On arrival yesterday, Surgeon Suzuki was met by Consul-General Saito and a delegation of Japanese gentlemen, and entertained during the day. Dr. Mori drove him to the Pull and then to the Aquarium during the forenoon, and shortly after noon he was a guest at luncheon at Mochizuki, at Walkiki. Dr. Uchida made an address of welcome, after which Consul Miki Saito spoke, referring to the immigration of Japanese to Hawaii, and the importance of Hawaii in Japanese commercial development.

## HOW JAPAN SQUARED UP.

The magnitude of Japan's naval successes in the present war is vividly illustrated by the statement of the London Times that out of a total of eighty-three ships, with a total displacement of 410,224 tons, which Russia sent into the zone of hostilities, only ten, with a displacement of 63,635 tons, remain in her fighting line. Another striking fact is that the Japanese force of seventy-six vessels, with a displacement of 274,184 tons, has sunk or captured sixty-four ships, with a displacement of 289,778 tons. It is true that this includes the ships which the besiegers' guns at Port Arthur helped to disable, but, on the other hand, it was solely by the indefatigable exertions of the Japanese fleet that these ships were driven into Port Arthur and held prisoners there. Another important point is that, whereas the Japanese have lost twelve ships with a total displacement of 46,025 tons, they have captured and added to their navy seven vessels representing 44,486 tons. Nor is this all. Already at Port Arthur the battleship Peresviet (12,674 tons) and the armored cruiser Bayan (7,800 tons) have been raised, and at Chemulpo the protected cruiser Varing (6,500 tons). Other ships will also be raised, but even with the addition of these three the Japanese navy will emerge from the fight with a displacement 25,435 tons greater than it had when the war commenced, whereas the Russian navy has been virtually annihilated.

## OPPOSES PROPOSED SALE.

Elizabeth K. Richardson by her attorney, A. G. M. Robertson, has demurred to John F. Colburn's petition for an order to the administrator to sell a two-thirds interest in the estate of Robert William Holt, deceased, to J. H. Galt for \$108,000. Among other grounds, she holds that the court in probate has no jurisdiction to grant the petition.

tion of Japanese to Hawaii, and the importance of Hawaii in Japanese commercial development.

Surgeon Suzuki then offered the health of the President of the United States, which was drunk in silence, and followed it with a toast to the Emperor of Japan. He made a speech in which he referred to the great victory in the Korean Straits.

Among the guests at the luncheon were Consul-General Saito, Dr. Uchida, Dr. Mori, Dr. Kobayashi, Dr. Katsuki, Mr. Mitamura, and others.

Dr. Suzuki participated in the battle of the Korean Straits. He stated that as soon as the scout cruiser reported the Russians coming up in the straits the Mikasa began veering to windward. When the Russians came within firing distance, they began to discharge projectiles at the Mikasa. Two or three of them struck the Mikasa, evidencing good aim, but after one of the Russian warships was struck and began to sink, the Russians seemed to be demoralized, and their aim became very bad indeed.

Surgeon Suzuki had little to say concerning the peace developments, as, when he left Japan, the conference had only begun its work. Whether he considered the terms satisfactory or not, he would not say.

## LET THEM TELL IT.

The Public Utterances of Honolulu Citizens Are What Count. Publicity Is What the People Want.

Let them tell it. Let the public speak on the subject. It means better understanding. Means less misery in Honolulu. Means confidence in a good thing. Home endorsement counts. Easier to believe your neighbors Than strangers in a far-away town. Every box of Doan's Kidney Pills Is backed by home testimony. Kidney disorders—urinary troubles—Are on the decrease here. Doan's Backache Kidney Pills are Relieving backs and curing citizens. It is their daily work. Here's a case in point.

Cyrus S. Edison of Kaplani Park, this city, says: "I am at present a teamster and came to the Islands fifteen years ago. Previous to that I drove a stage coach in the United States. These occupations necessitating my being out at all seasons were no doubt the cause of my kidney disorder. I had the ordinary symptoms of this complaint, and resorted to a host of things to cure it. All of them failed to do so, however, and when I had almost given up hope I heard about Doan's Backache Kidney Pills and got some at the Hollister Drug Co.'s store. They did indeed relieve me and I am quite satisfied with the benefit they have been to me."

Doan's Backache Kidney Pills are for sale by all dealers; price 50 cents per box (six boxes \$2.50). Mailed by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

The American steamer Montana, bound for Petropavlovsk, was captured by the Japanese in the Bering Sea August 23.
